

**MASSACHUSETTS
DEPARTMENT OF ENERGY RESOURCES
ENERGY AUDIT PROGRAM (EAP)**

APPLICATION

General Information: The Department of Energy Resources (DOER) is accepting 2nd round applications for the Energy Audit Program (EAP) until April 15, 2009. This program, through the use of energy audits and clean technology feasibility studies, is designed to assist to cities, towns, regional school districts and waste water districts to identify capital improvements that help cut energy costs. Once applications are received, DOER will review applications, place them in a queue based on date received and assign auditors to conduct Preliminary Audits on a first in-first served basis. Benchmarking of structures will be conducted to evaluate annual energy use and to assist in cost estimate and appropriateness for a detailed energy audit providing conservation measure analysis, potential for clean technology and associated costs and savings. Based on this audit, applicants may be eligible for potential funding from DOER to implement eligible efficiency and/or clean technology measures.

ONLY THOSE FACILITIES DETERMINED TO HAVE SIGNIFICANT ENERGY SAVINGS POTENTIAL WILL RECEIVE TECHNICAL AUDITS. ONLY MEASURES IDENTIFIED IN THE APPROVED AUDITS ARE ELIGIBLE FOR POTENTIAL DOER FUNDING.

Eligibility: Audits are available for all facilities (schools, fire, libraries, etc) owned and operated by a City, Town, Regional School District as well as facilities owned and operated by a municipal or district Wastewater/Water Treatment Department.

DEADLINE: April 15, 2009

Applications received after the April 15, 2009 deadline will be returned.

Signature Requirements:

The person signing should have the authority to allow DOER and its representative(s) access to their building(s) to conduct audits and/or inspect the site.

It is REQUIRED that you complete the attached 1) Building Verification form and 2) appropriate appendices in the EIS Account Entry template.

Submit application to and direct questions to:
